

MEDICAL CONSULTING ROOMS AT JOSEP TRUETA HOSPITAL IN GIRONA

GENERAL INFORMATION

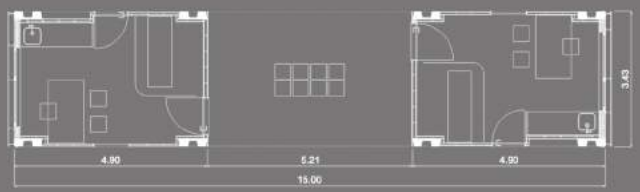

Location: Av. de França, s/n (Girona)
Client/Developer: Servei Català de la Salut (CatSalut)
General Contractor: Constructora d'Aro
Architect: Bbats Consulting & Projects, SLP

Number of Modules: 80 Units
Traditional System: 0 m2
eMii System: 3.202,80 m2
Total Built Area: 3.202,80 m2

DESCRIPTION

The addition of 89 offices to the Josep Trueta Hospital was completed using only Compact Habit modules. The modules were used to create not only offices and patient rooms but also common areas, corridors and waiting rooms.

In the future, these units will be un-stacked, moved and re-stacked to create a new health care facility in another area of Girona.

BUILDING STATUS

Project: September 2010
Work: 3,5 months
Manufacturing: 7 weeks
Erection of Modules: 10 dies
